Hettich – an Indian success story

Hettich started operations in India with the dawn of the new millennium. Within a span of 18 years, the company has gained the undisputed leadership position in the Indian furniture fittings & hardware industry.

Hettich India prides itself on having most of the major hardware dealers in India as its trade partners across the country. These dealers are spread over all the important cities and towns, so that they are within easy reach of the customer. Hettich India delivers complete "peace of mind" to the Indian furniture manufacturing industry.

We have a strong reputation for providing high quality and high tech products. Our products are backed by pre- and after-sales service and on-time deliveries, and by value adding services like design and installation support.

The company's origins date back to 1888, when Karl Hettich began making the new clock component he had invented. By 1930, his descendants had diversified into furniture fittings, setting up production in East Westphalia – a center of the German furniture industry.

Prolouge

It's your ideas that decide SlideLine M turns simple shelf units into attractive pieces of practical furniture with a look that can be varied all the time: moving the doors to different positions creates ever changing constellations of open and closed elements. This gets things moving in furniture design. And never fails to please. It's your ideas that decide. Discover the wealth of applications for SlideLine M.

SLIDE IT

LOVE IT

#image sourced from web

Slide it. Love it.

People like to keep it simple. On their tablet PCs. On their smart phones. The revolutionary aesthetic appeal of virtual sliding fascinates millions: gentle, flowing movement, simply at the touch of a finger.

But sliding in the real world is captivating more and more people: cars that provide real practical value come with a sliding door; a sliding sunroof creates a sensation of openness and space, and at home there we are sliding panel curtains and doors, whether as room dividers or on furniture.

The trend towards sliding is also opening new doors for you: Hettich gives you sliding door systems that go perfectly with your furniture ideas. For bedroom, living room, office and kitchen furniture

Design in motion

SlideLine M upgrades the practical value and design of furniture: living room units and shelf systems, kitchen wall units, bathroom furniture and office cabinets. The versatile system is ideal for all common furniture constructions. Wooden / glass or aluminium framed door weighing up to 30 kg can be installed quickly and easily. Profiles are available for several shelf thicknesses.

Letting doors slide past each another in one profile isn't a problem either. The Silent System is integrated in the running component and slows doors down in closing, opening and colliding direction.

*It's your ideas
that decide!*

SlideLine M turns simple shelf units into attractive pieces of practical furniture with a look that can be varied all the time: moving the doors to different positions creates ever changing constellations of open and closed elements. This gets things moving in furniture design. And never fails to please. It's your ideas that decide. Discover the wealth of applications for SlideLine M.

Designer's Note

This idea-book we composed during covid19 lockdown period in month of April 2020. Today we are facing an unprecedented problem, having indefinable dimensions and consequences, which has never been encountered ever before. Noval Corona Virus "Covid 19" is created by the nature, the enemy is neither seen nor visible, nobody has any idea even about its DNA or antidote.

While need of the hour is to be physically distant we peacefully worked from home and still we remain socially connected with our family, friends and the loved ones by using our phone, email, video conferencing, we also come up with new idea-book for Hettich fitting SlideLine M, you witnessed.

Now way of designing and sales will change quite substantially. And we are prepared to embrace them all. Hope this idea-book will open some thought to support our customers and empowering architects and designers.

Also please take good care of your health. We wish you all and your families robust health and long life, Stay Healthy. Stay Safe.
