AF SMART FURNITURE IDEA BOOK

ABOUT US

The company's origins date back to 1888, when Karl Hettich began making the new clock component he had invented. By 1930, his descendants had diversified into furniture fittings, setting up production in East Westphalia – a Centre of the German furniture industry.

Today, Hettich, still family owned, has become an industry leader with a worldwide reputation. We're one of the world's largest manufacturers of high quality furniture fittings, with over 6,000 employees in more than 100 countries. The company's success has been built on four enduring values: quality, innovation, close cooperation with customers and absolute reliability. We work to inspire our customers with our ideas and our passion.

KEY HIGHLIGHTS

Smart Furniture The Next Trend!

Technology has definitely changed over the decade through wireless innovations and artificial intelligence. These days we are looking for quick solutions to solve our problems and ways to simplify our lives just by saying "Alexa! What is the temperature outside?" Modern day furniture is far more advanced and is capable of doing lot many things that we look forward to because of its technology, sustainability, multi-functionality and efficiency.

Users will surely prefer having such revolutionary furnitures in their homes just because of how convenient they are primarily due to the convenience that it offers. With the right blend of Hettich's Innovative Furniture Fittings and the technological integrations, users will be able to interact with both; design and function.

It is amazing to see how emerging technology is shaping the furniture industry and this "Smart Furniture Idea Book" has been conceptualized to address the needs of modern day living.
